Air BPs Internationally Recognized Quality Control Training Seminar 2009 Schedule

Air BP Offers Class Room Training and Hands-On Experience to Aviation Industry

Salem, Oregon – March, 2009 – Air BP announces its annual Safety and Quality Control Seminar Schedule for 2009. The two day training series offers airport personnel, QC, QA, pilots and corporate flight departments the opportunity to learn current safety regulations through class-room education and hands-on experience. Trainers, Walter Chartrand and Dave Ware of Air BP, showcase Air BPs dedication to continued training by taking an in depth look at current safety rules and regulations.

“Keeping personnel up to date on current safety procedures is a critical component of any successful FBO,” said Walter Chartrand, Air BP Training Manager. “The Air BP Quality Control training series serves to present our branded dealers with yet another value added offering that they have come to depend on for business growth and success.”

The two day seminar is free to all Air BP branded dealers (\$595 for other attendees). Training and open-discussions of the following topics are included in each seminar:

- Risk Management, FBO Operations & Line Service Training
- Fuel Quality Control Field Testing & Proper Receipt Procedures
- Fuel Specifications, Distribution & Filtration
- Misfueling Prevention
- Fuel Farm & Refueler Preventative Maintenance
- Ramp Safety & Security Training
- 14 CFR Part 139 Section 321 Fire Training

The QC seminars are complemented by Air BPs Online Training Program. The web based program provides FBO personnel and others the advantage of enhancing their knowledge base on topics such as safety regulations, quality control and customer service. The online educational series is designed to engage and educate through graphics, real world scenarios, testimonials and day-to-day situations. For more information about the Online Training Program visit <http://onlinetraining.airbpaviation.com> or contact Chris Fought at 800-752-9220.

Maintaining a safe work environment at every FBO while receiving and selling only quality fuel is the framework in which both educational forums were comprised. Air BP encourages you to visit <http://training.epic-aviation.com> for more information or to enroll in the next seminar near you.
